Harni, Waghodia Road & Manjalpur

Kindergarten Section

Life Long Learning Memories

Profile

Established in the year 1991, Ambe is a leading educational group of Vadodara which has grown strength to strength in past 32 glorious years. There are over 17,000 students studying across the city with the help of 695 teaching & non teaching staff and there are 326 classes operating in 427 rooms, sprawling over 2.23 lakhs sq.ft. of land with 3.78 sq.ft of construction area.

The group's belief in "Quality Education for Masses" has created thousands of responsible citizens.

Late Shri Suryakant R. Shah
Founder & Pioneer - Ambe Group Of Schools
3rd August 1951 - till eternity

Founder & Pioneer of Ambe Group of Schools, Late Shri Suryakant R. Shah, born on 3rd August 1951, was a man of great compassion & was always committed to humanity. His motto being "Quality Education for Masses..." made him reach the common man. Great is his legacy which he left behind, that we pledge to nurture this unique chain of Educational Institutions and to carry forward its programme into the vistas of the future, in the same spirit in which it was founded. "There is no power of Earth that can neutralise the influence of a high, pure, simple and honest personality".

Amit Shah
Chairman, Ambe Group of Schools

A self-disciplined person with a firm set of beliefs, ideas and values with his unparalleled commitment and meritorious work, coordinates and implements the group school policies shaping a vision of academic success for all students thus keeping the name of the educational institute at the highest level. Fair and consistent, organised and prepared, he possesses excellent communication and organizational abilities.

Mrs. Bharti S. Shah
Directress & Trustee, Ambe Group of Schools

A personality with strong decisive managerial power to develop and administer educational institutes successfully. A high quality productive work force is trained and created under her able mentorship.

Mrs. Bhavesha Shah
Directress-K.G. Section, Ambe Group of Schools

An experienced and recognized transformational leader who works seamlessly with her innovative team of educators to make kindergarten learning enjoyable & effective for the tiny tots so that they can carry the happy learning memories life long.

Vision : To groom and nurture dynamic and caring citizens of tomorrow, to meet the challenges of a global society while retaining their moral and traditional values.

Belief : Ambe Parivar, firmly believes in these very words of Swami Vivekananda, "Knowledge exists in every human being and education is the process through which realization of that knowledge takes place".

Mission : To impart holistic education in our temple of knowledge by extending freedom to all students equally, thereby grooming the students to accept global challenges and to grow up into responsible future citizens.

"It is the supreme art of the teacher to awaken joy in creative expression and knowledge".

-Albert Einstein

Objectives

Kindergarten "Garden for children" is a place where children can be nurtured and allowed to grow on their own.

The formal teaching method is very monotonous which makes the students repel school. Here, learning is imparted with new methodology i.e., "Learning by Doing", keeping in mind various stages of development which help them to prepare for higher grades.

"Kindergarten is a preschool that describes children as plants and teachers as gardeners."

Impact of NEP of Preschoolers

The new National Education Policy is based on 5 + 3 + 3 + 4 structure where in a strong base of Early Child Care and Education (ECCE) from age 3 is also included, which will surely help in promoting better learning, development and the overall well-being of children.

Ambe group of schools always tries to do something different providing better learning environment to the students. As we are aware that the NEW EDUCATION POLICY-2020 highlights the 6Cs which includes an increased emphasis on Co-curricular activities, Critical thinking, Communication, Continuous review, Creativity and Culture. All these aspects have to be driven by 5Vs that include an emphasis on Values, Vedas, Virtue, Vocational education and Versatility.

Intellectual Skills

Intellectual or Cognitive skills are the core skills used by brain to think, read, learn, remember, reason and pay attention. These skills play a vital role in overall development of child enhanced through various activities like singing, playing board games, card games, listening to different sounds, reading books, telling jokes & riddles etc...

Pre-Math Skills

Pre - math skills are an important part of learning for preschoolers. We teach them through counting, seriations, differentiations, measuring, sequencing, estimations etc. thus receiving a good grounding of maths is essential in developing life skills. These are taught through various activities and games.

Linguistic skills

Language is a medium to measure the capacity of an individual to understand and express themselves. It enables the child to learn the skills and competencies related to speaking and listening. Developing their vocabulary, grammar, the sound of languages and how words evolve with proper pronunciations. This is done through recognition of letters & words, singing rhymes, listening to stories, and interpretation, drilling sessions and many more.

Socio-Emotional Skills

Social & emotional skills are essential to manage our emotions & build healthy relationships. It influences child's self confidence and gradually develops collaboration to acquire the capacity to understand, experience & express the sense of importance and value to those around. All these skills are taught by conversations, interactions & acknowledging the child's feelings through various group activities and team games.

Tech skills

Technology refers to the use of modern devices which has increased the IQ level of students, along with their mental skills and helped them to develop their ability to solve problems by easy access to information. These skills become necessary when the daily system of working is affected by any world changing event to navigate their lives in technology driven world and remain at par with Global Kids.

Motor skills

Motor Skills are physical skills that develop simultaneously according to age. These skills are developed automatically when a child is normal and healthy. We use the teaching pattern according to the skills developing naturally and enhance them by hundreds of gross motor and fine motor activities. Activities like finger tracing, clay molding, paper crumbling, finger printing, threading beads, lacing, cutting, etc. develops Fine motor skill. Activities like jumping, hopping, skipping, rolling, bending and stretching develop Gross motor skill. We also use the combination of all these activities with academics to enhance the learning experience.

Environmental skills

Environmental skills are taught with a purpose to create individuals with empathy for our fellow human beings, other species exist in the nature on the mother Earth. These are taught by projects, role plays, moral stories, field visits etc. Understanding of the way our country works is made clear by assigning projects related to the topics like Traffic Rules, Postal Services, Police, working of the Government etc. Another part is the culture of our country we stay in. They learn all these by festival celebrations, values and moral teachings through Ambe days- our very own innovation.

"Hand in Hand we can reach highest results"

Special Days Celebrated

Different festivals like Ganesh Chaturthi, Rakshabandhan, Janmashtami, Navratri, Diwali, Christmas, etc. are celebrated to inculcate respect for all religions among children.

Special days like Ambe Days are celebrated to give our children a vital facet meant to inculcate in the children, the values of Indian culture, sanskaras and portals of self-learning.

Colour day expresses and helps the student's imagination to develop social relationship and awareness about the environment. Special days & celebrations are organized with the help of displays, demonstrations, presentations & stage-shows by young learners.

All these activities encourage them to develop a feeling of unity and brotherhood. A variety of project-based activities on different topics are discussed in the class throughout the year which includes stories, songs and group interaction.

Projects are specially designed to motivate children and engage them in team work to develop their presentation skills.

Learning Outcomes

Psychologists say 3 - 6 are the root years of a child's life. Hence, those are the years when the child needs utmost attention, both from parents & teachers. We at Ambe, nurture the child as our own. Our evaluation system is designed in such a way that the child is continuously assessed & evaluated while learning. Our vision is to create a school where learning is defined by the child's inherent desire to learn; inspired by joy and faith. Playing, learning and enjoying every minute, stimulates the child's imagination by providing opportunities to grow and develop. Our principle is to help the children master the skills needed to succeed as they travel along the path of discovery.

Co-curricular activities are also a part of our curriculum. Children are motivated through various activities like art, craft, music, dance, yoga & computer. Constant attempts are made to develop the student's awareness for their own interests and adequate guidance is provided to help them grow.

Ambe Group of School's K.G. Section was Awarded with Teaching Excellence Award by the education system from Finland, which is known as the best developed education system in the world.
